

BHTS ZZ 350°

Beco Plus

Rolamentos para temperaturas extremas
Livres de manutenção + de alta velocidade

SERIE 6000

6315 BHTS ZZ 350° Beco Plus	75	160	37	100	52,76	76,5

Características técnicas:

- Material do rolamento: aço AISI 52100 (Cromado) estabilizado para a aplicação
- Tratamento com revestimento a fosfato de manganês em todas as partes metálicas do rolamento
- Folga radial 4xC5
- Blindagens ZZ
- Lubrificado para toda a vida com composto de graxa BECO para temperaturas até 375°C
- Não precisa de lubrificação adicional

Campos de aplicação:

- Estufas de pintura
- Indústria siderúrgica
- Fornos para indústria cerâmica
- Vagonetes industriais, vagonetes para indústria de fornos de tijolo

Vantagens:

- O rolamento com melhor desempenho do mercado
- Até 3 vezes mais velocidade do que qualquer outro concorrente na temperatura máxima
